# Steps in this Demo

1. Create a Form
2. Create a Power BI streaming dataset
3. Create a Flow (Power Automate)
4. Create a Power BI report
5. Create a Power BI dashboard
6. More options...

# Steps in this Demo

1. Create a Form
2. Create a Power BI streaming dataset
  - Multiple choice is hard to use in Power BI
3. Create a Flow (Power Automate)
  - Triggered with the submit of the form
4. Create a Power BI report
  - Linked to the streaming dataset
5. Create a Power BI dashboard
6. Create a short URL to share
7. More options

# Add other steps to your Flow

- Data Loss Prevention Policy

# Add other steps to your Flow

- Data Loss Prevention Policy

**Power Platform admin center | Admin center**

DLP Policies > **View Policy**

✓ Policy name  
VLKCO Default DLP Policy

✓ Connectors

✓ Scope

✓ Review

### Assign connectors ⓘ

Business (28)   Non-business (319) | Default   Blocked (0)

Business (28)

Connectors for sensitive data. Connectors in this group can't share data with connectors in other groups.

# Add other steps - Flow

- Data Loss Prevention Policy

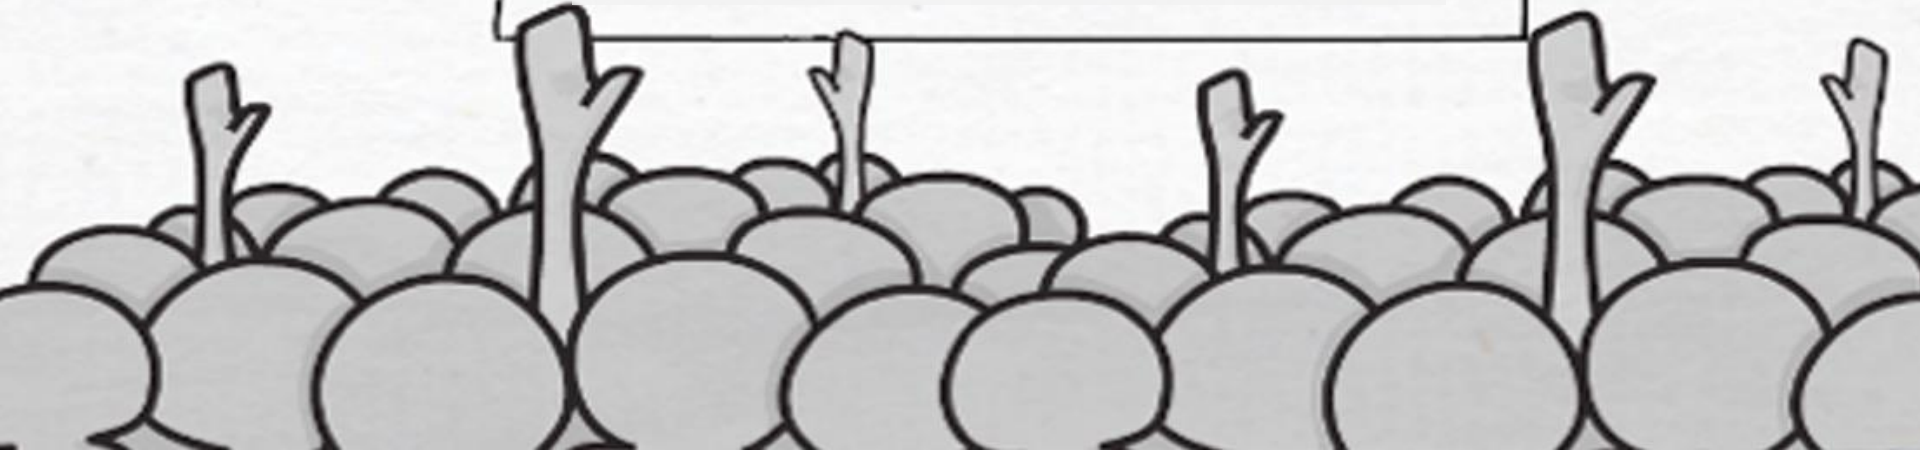

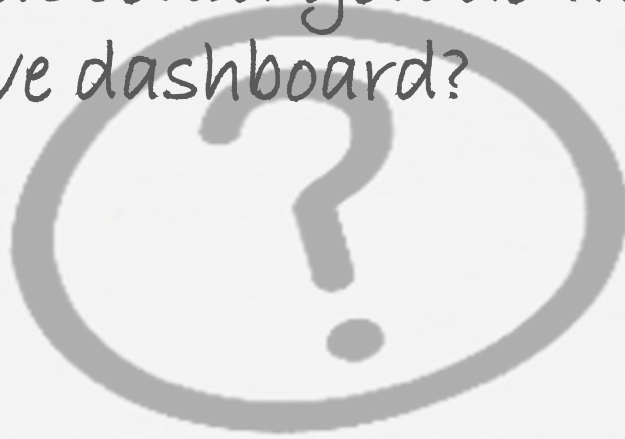

## Examples:

- Teams
  - Create a new thread
  - Reply to a thread
- Twitter:
  - The tweet has to be unique, so add an increment or datetime

# Add other steps

- Use Revolver to cycle through tabs ([Chrome extension](#))

What could you do with  
a live dashboard?

# Resources
