**What use cases can
you think of with this
integration of Power
Apps & Power BI?**

The image shows a large crowd of people, represented by grey circles and stick figures, holding up a large white sign. The sign contains the text 'What use cases can you think of with this integration of Power Apps & Power BI?' in red. The background is a light blue sky with a faint, large question mark watermark.

Other use cases for Power Apps

- Writeback, for comments or feedback
- Master data management
- Combine Budget with Sales data
- ...
